新一代基因抗老成分NMN, 科研證實有助提升身體NAD+, 激活DNA修復能力¹。NMN是NAD+的前體, 會在細胞內轉化成NAD+, 由於轉化過程在細胞內進行, 吸收效益比起直接服用更高更全面。

全新「NMN15000逆齡20」將NMN結合藏紅花提取物、白藜蘆醇及生物素B7等活性成分, 六大成分全方位啟動細胞再生, 延緩衰老, 重現年輕活力。

NMN - a new generation of age-defying supplement ingredient. A study found that NAD+ levels in the body are increased and DNA repair is activated as a response to the intake of NMN¹. NMN is a precursor to NAD+ and will convert to NAD+ inside body cells. The whole conversion process is taken inside cells, hence, a better absorption than direct intake is resulted.

The New NMN 15000 contains Saffron Extract, Resveratrol and Biotin vitamin B7 and other active ingredients, which help cell regeneration and rejuvenation.
